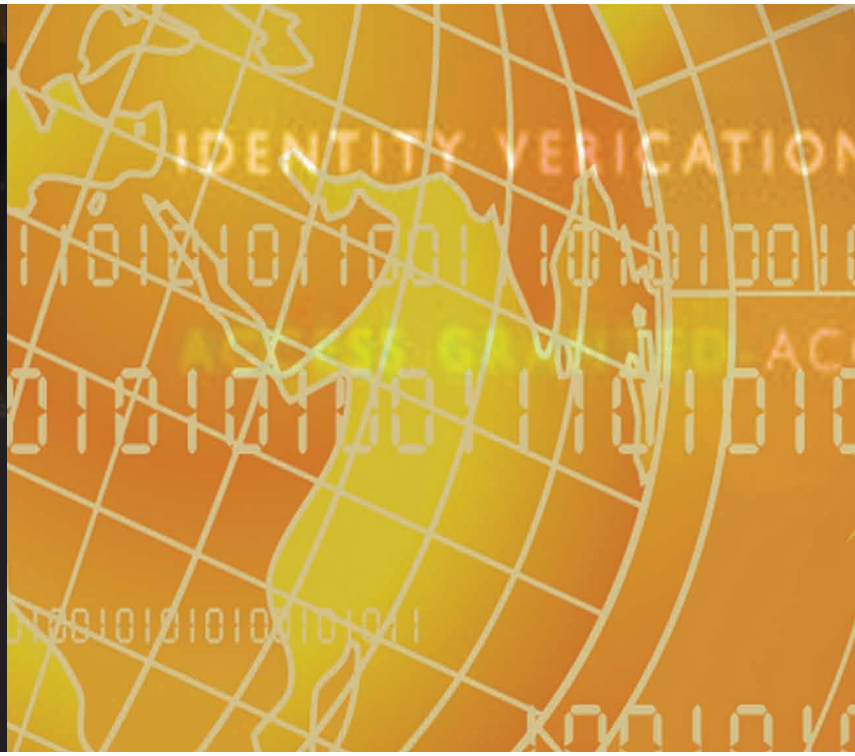
Asure ID

At last you can have complete control over your card design and printing requirements. Depending on your individual requirements, IDW Technologies offers a range of multifunctional Asure ID software applications that are easy and flexible to use, with features to manage any card design and printing need.



Asure ID Solo™

Asure ID Solo™ is great for organisations looking for an entry level photo ID card software that provides quick and easy single sided card design and print production.

Asure ID Express™

Asure ID Express™ is the ideal choice for organisations looking for an affordable, powerful, and easy-to-use stand alone photo ID card software with advanced card design and batch printing capabilities.

Asure ID Enterprise™

Asure ID Enterprise™ is the perfect photo ID card software for organisations that operate over a corporate network. Multiple operators and different departments can easily create, update and maintain multiple shared records in real time.

Asure ID Exchange™

Asure ID Exchange™ is the perfect photo ID and ID card application control software for organisations seeking intuitive card design, data management and advanced card personalisation. Powerful integration, enrollment and encoding modules ensure a quick and seamless gateway with other existing database and network applications.

- User Friendly
- Ideal for Many Applications
- Password Protected
- Batch Printing Capabilities
- Poweful and Affordable
